

**International Post-Graduate Course On The Principles And Methods Of Engineering Geology
SECOND COURSE JUNE 1 - AUGUST 31, 1979.**

- Administration and organization program. Bp. 1979. 14 lev.
- GABOS, GYÖRGY: Foundation. Bp. 1979. 223, [1] p.
- GÁLFY, JÁNOS: Geophysical prospecting. Bp. 1979. 132 p.
- GRESCHIK, GYULA: Deep foundation and underground structures. Bp. 1979. 215, [1] p.
- KERTÉSZ, PÁL: Rock physics. Bp. 1979. 190, p.
- KORIM, KÁLMÁN: Applied hydrogeology. Bp. 1979. 109, [1] p.
- KOVÁCS, GYÖRGY: Practical application of hydrodynamic models. Bp. 1979. 183, [1] p.
- LOCSMÁNDI, GÁBOR: Urban development and planning. Bp. 1979. 131, [1] p.
- PAPP, FERENC: A practical example for the engineering geological problems of plain-land storage.
Bp. 1979. 25, [3] p.
- RÓNAI, ANDRÁS: Engineering geological mapping. Supplement. Engineering geological maps in
developed countries. Bp. 1979. 80 p.
- ZENTAI, PÉTER: Chemistry of rocks and natural waters (supplement) Bp. 1979. 104 p.
- Guide excursion. Comp. by: RÓNAI, ANDRÁS - SCHAREK, P. Bp. 1979. 111, [1] p.
- Final papers. Comp. by: SCHAREK, P. Bp. 1979. 372, [2] p.
